Renew™ Sit-to-Stand Tables

A healthier way to work

Renew Sit-to-Stand Tables
Designed by Brian Alexander

Elegant in form and efficient in design, Renew makes moving from sitting to standing—and back again—a natural part of your day. Everything you've been looking for in a sit-to-stand table is accounted for, from intuitive height adjustment to cable management to a durable, long-lasting desk. And you

can be confident in the life of your standing desk, with our all-encompassing warranty. Combined with a great office chair, Renew gives you a full range of supported movement to help you stay active and healthy while you work.

A variety of privacy screens can be added to Renew to give people a sense of enclosure and ownership over their personal space when using the table in group settings.

Put an Emphasis on Wellness

Our bodies aren't designed to stay in one position. We were made to move. But between sitting and sleeping, most Americans are sedentary for around 21 hours a day. Research links sedentary lifestyles to a higher risk of diabetes, some cancers, obesity, and cardiovascular disease. Renew helps people take charge of their wellness at work by making it easier to change positions throughout the day.

Keep Cables Accessible and Out of Sight

Gone are the days of fumbling underneath your desk, trying to access the closest power outlet. With Renew, power is easy to reach with multiple configurations of simplex receptacles and USB charging ports on the work surface. And the jumble of cables is organized tidily out of sight, thanks to cord management that routes through the table leg and hidden in the tray below.

Give People the Focus

Every inch of Renew was thoughtfully considered from the point of view of the person using it and the people sitting or standing nearby. A top-to-bottom design looks presentable from all angles, even when the table is raised. With thoughtfully positioned table legs, softly angled corners, and a cable tray that's tucked away, leg room beneath the desk is generous and clutter-free. And the design is easily integrated in your office, creating a dynamic, supportive workspace.

Renew keeps all electrical components concealed neatly below the surface. The softly angled corners are also easy on your knees.

The simple, intuitive control works exactly as you'd expect: Lift up to raise the table, press down to lower it.

Renew can become a centerpiece of settings designed to support team collaboration. Raising the table to standing height encourages participation in whiteboard exercises.

Be Active without Thinking About It

Renew lets people enjoy all the perks of healthy movement without disrupting the workflow. A soft, paddle-shaped switch works exactly as expected—moving up to raise the table and down to lower it—so people can change the desk height with little effort. A range of adjustments let each person choose the perfect sitting or standing height or share a space without compromising comfort.

About Brian Alexander

Brian Alexander describes himself as an observationalist. “I spend a lot of time getting to know the behaviors of everything,” he says. He is so fascinated by people’s behavior, in fact, that he’s been compiling an owner’s manual for humans since the late 1980s. He adds to the manual frequently—and draws upon it for every project he does. One example is the intuitive height-adjustment switch on Renew Sit-to-Stand Tables. After noting how people interacted with other switches, he designed a new control that encompasses our basic intuitions about direction.

Brian Alexander

A seamless wire management design routes the cords from all of your desktop tools into a high-density cable trough below the table, keeping them out of sight even when the table is raised. Power can even be passed through the base for a clean, streamlined aesthetic.

Components

The variety of surface shapes available is sized to integrate with common workspace configurations.

Rectangular Table with C-Foot

Rectangular Table with T-Foot

Oval Table with T-Foot

90° Extended Corner Table with C-Foot

90° Corner Table with C-Foot

120° Corner Table with C-Foot

Mechanism
 Electric Standard (E)
 Electric Extended (D)
 Crank Sit-to-Stand (C)
 Crank Seated (K)
 Pneumatic Counterbalance

Sit-to-Stand Height Range
 27" to 46"
 24" to 50"
 27" to 46"
 22" to 34"
 27" to 46"
