

Cubert® Personal Light

Cubert provides power for personal devices in an integrated form. Light, two AC sockets, and two smart-charging USB ports are neatly arranged in a single product that takes up less space and is easy to use. Cubert's quality LED light has a touch-sensitive dimmer and an energy-efficient four-hour automatic shutoff. With its sleek design and intuitive technology, Cubert is a welcome addition to any environment.

Benefits

- Integrated power and USB charging for personal devices
- Head tilts and rotates, so light can be directed at task
- Automatic shutoff

Warranty

5 years
