

HermanMiller

Cubert™ Personal Light

Designer

Colebrook Bosson Saunders

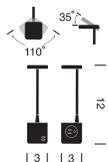

Cubert provides power for personal devices in an integrated form—factoring the arrangement of light, USB, and AC power that is more compact than ever achieved before, so it's easier to use and takes up less space. Cubert has the ability to power and charge via two AC sockets and two smart-charging USB ports. Cubert also comprises an intricate, high-quality LED light with a touch-sensitive dimmer and an energy efficient four-hour auto shutoff.

Warranty

5 years
