

# Intent™ Solution

Intent combines an all-purpose table with an integrated wall system. Together, they help caregivers in exam rooms use all sorts of technology naturally, making Intent a tool for talking with patients and keeping the focus on the conversation. This improves the experience for everyone and builds trust.

## Benefits

- Height-adjustable and mobile table, so caregivers can maintain face-to-face connections with patients
- Treats technology as an aid to communicating with patients, not the center of attention, so caregivers can stay focused on their patients
- Table is uniquely shaped to enhance conversation between patient and caregiver but also serves as a sit-to-stand utility table

## Warranty

5-year warranty

## Key Features

- 1. Waterfall Edge**  
Incorporates ergonomics with a waterfall edge that is easy on the forearms.
- 2. Inviting Shape**  
Shape invites caregiver and patient to gather around it.
- 3. Technology Support**  
Supports all sorts of technology, from desktops and monitors to laptops and tablets.
- 4. Nesting**  
Table and wall unit's shelf nest together to create a peninsula for extra work or consultation.
