Magis Bombo® Stool

Designer

Stefano Giovannoni for Magis

Original Production Date

1997

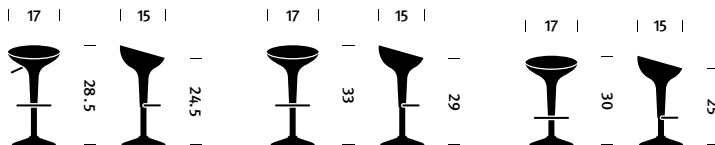

Design for the Environment

24% recycled content; 100% recyclable

Warranty

2 years

So futuristic that it's been used on the sets of popular sci-fi films and TV series, this innovative design by Stefano Giovannoni changed the whole idea of how a stool could look. Featuring a chrome steel base and a seat that swivels 360 degrees, the unusual—and comfortable—seat easily moves up and down, thanks to an internal gas piston.

*Adjustable height, +/- 4.5"
