

HermanMiller Collection

Magis Stool_One

Designer

Konstantin Grcic for Magis

Original Production Date

2003

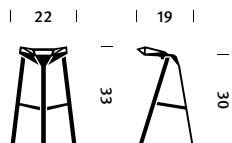

Design for the Environment

72% recycled content; 99% recyclable

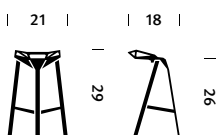

Warranty

2 years

Modeled from die-cast aluminum and constructed like a soccer ball, Konstantin Grcic's stackable and unexpectedly comfortable stool was designed to be more open space than solid. Available in two sizes and a choice of finishes, its striking, sculptural form garners attention in both casual and formal environments. Sold in sets of 2.
