Magis Table_One

Designer

Konstantin Grcic for Magis

Original Production Date

2005

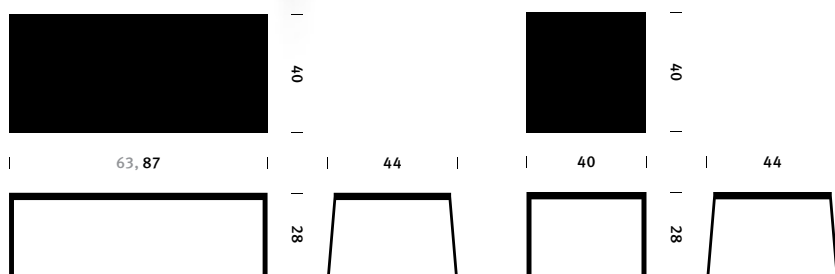

Design for the Environment

8% recycled content; 14% recyclable

Warranty

2 years

However it's used—dining table, work surface—this beautifully practical table by Konstantin Grcic is up for the task. Compared to the openwork of Chair_One and Stool_One, this table's design is solid, but still delivers the same sleek look. Its frame and legs are anodized aluminum; high-pressure laminate tops come in black or white.

Rectangular

Square
