Mattiazzi Branca Chair

Designer

Sam Hecht / Industrial Facility for Mattiazzi

Original Production Date

2009

Design for the Environment

0% recycled content; 100% recyclable

Warranty

2 years

With seamless joints and a seat and back carved from a single piece of wood, the form of this chair evokes the way tree branches ("branca" in Italian) turn, twist, meet, and branch off. Combining the best of robotic manufacturing and hand woodworking, it's stackable and versatile.
