

Nemschoff® Erica Junior Children's Furniture

Give kids a place of their own. Nemschoff Erica Junior Children's Furniture is built small for younger guests and patients. The two-piece set includes a side chair that's sized just right and a coordinating table that provides a kid-friendly surface to draw and play games. Both chair and table are several inches shorter than standard furniture. Though mostly used in waiting areas, the Erica Junior Side Chair and Table also work well as an addition to patient rooms used by children.

Benefits

- Child-size chair and coordinating table make any waiting area more family friendly
- Children's furniture makes it easier for parents to keep kids content and occupied
- Multiple features contribute to long-term performance in heavy-use healthcare settings

Warranty

12-year, 3-shift
