

Nemschoff® Leonard Seating

Nemschoff Leonard Seating offers three ways to help visitors stay comfortable in patient rooms—a recliner, settee, and flop sofa. The recliner welcomes guests by making it easy to find just the right position for eating, visiting, reading, or watching TV. It also appeals to patients as an inviting alternative to their hospital bed. The settee and sofa both convert to sleep surfaces, encouraging visitors to participate in the healing process with their presence at the bedside. Coordinating style among all three lets you achieve a cohesive look in patient rooms.

Benefits

- Recliner moves within an infinite range from upright to nearly flat; independent control elevates the footrest
- Settee sleeps one—the left or right side extends out to turn the seating area into a sleep surface
- Sofa sleeps two—just pull out the seat and flop down the back; one person can do it in seconds

Warranty

12-year, 3-shift
(recliner mechanism: 10-year)

Nemschoff® Leonard Seating

Key Features

1. Non-Marring Glides

Glides on bottom of legs protect flooring from scuffs; casters available for recliner

2. Spring Seat Construction

Suspension system provides uniform support and keeps upholstery from puddling

3. Replaceable Components

Mechanical fasteners allow parts to be serviced in the field, increasing product lifespan

4. Linen Storage

Settee and sofa have compartment under the seat to store bedding

5. Arm Cap Options

Choose wood, black urethane, or fully upholstered

6. Moisture Barrier

Optional extra layer of protection prevents moisture from seeping into filling materials
