

# Nemschoff® Palisade™ Stool

With its open shape, gently curved back, and supportive cushions, the Nemschoff Palisade Stool allows caregivers and guests to shift between a range of natural postures at the patient's bedside. It also can be used in waiting areas, giving visitors a convenient place to perch. The stool is often paired with the companion Palisade Daystand—saving space by nesting within the daystand when not in use. It's part of the comprehensive Palisade Collection of healthcare furniture that offers a coordinated look throughout patient rooms and waiting areas.

## Designer

Jess Sorel

## Benefits

- A versatile seat for caregivers and guests in patient rooms and waiting areas
- Footring adds an extra dose of comfort, while removable upholstery aids longevity
- Part of a family of healthcare products that includes seating, tables, and storage

## Warranty
