

Nemschoff® Pamona™ Seating

The Pamona Seating family gives healthcare facilities a way to achieve a consistent look in patient rooms, waiting areas, and lounges. For patient rooms, Pamona offers both a recliner for patients and a sofa that opens into a sleep surface for guests. With waiting rooms, there are three types of lounge seating: an armchair, a settee, and a sofa. All elements within the Pamona family share a similar style, making it possible to achieve design continuity throughout any healthcare facility.
